

Beautiful among the beautiful

The French Riviera was the setting for the premiere of the new model of Monte Carlo Yachts range, the **MCY 86**, a 26-meter flybridge with megayacht qualities
by Francesco Mauri, Photo Ivan Fois

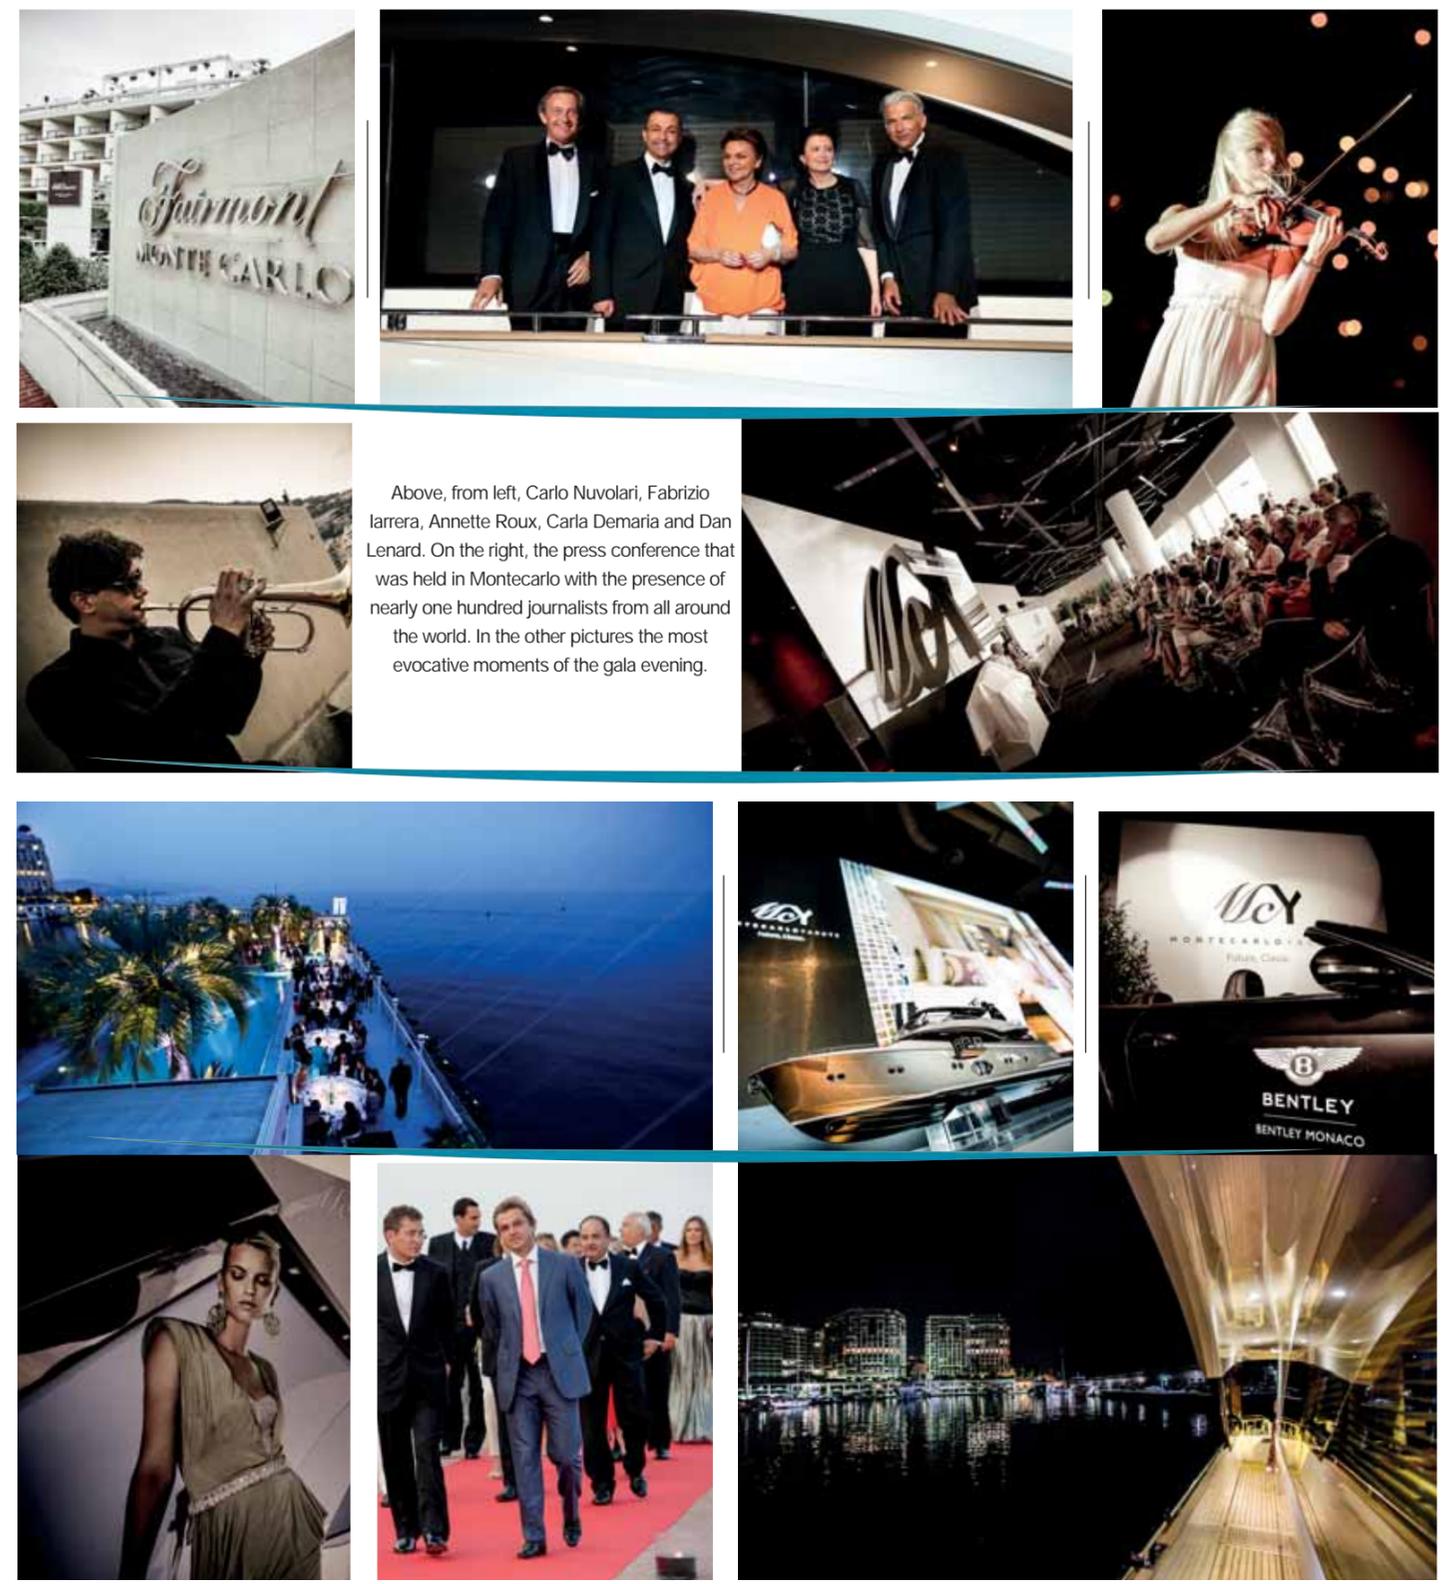

A select number of guests, including owners, editors and journalists of the most important international magazines, joined the top management of Monte Carlo Yachts and Beneteau Groupe to celebrate the reveal of the new MCY 86, the fourth model in the MCY range. At the event there were also the designers Carlo Nuvolari and Dan Lenard and the team who followed the yacht development.

After appearing in the open sea accompanied by a splendid full moon, the MCY 86 reached the private pier of Key Largo Villa in Cap d'Ail.

Here guests could see the yacht up close, with the performance of the famous violinist Saule Kilaite.

Once on board, all participants were able to understand the functionality, the design solutions and the quality of the features of the MCY 86, all of which make the boat a yacht comparable to one of higher dimensions. The Monte Carlo Yachts 86 will be presented for the first time to the public at the Festival de la Plaisance in Cannes. At its side will be the other models of the range: MCY 76, MCY 70, MCY 65.

Spectacular was the arrival at night of the new MCY 86. An event that had been studied in detail in order to maximize a boat with many interesting ideas. (See our sea trial on page 108).

Above, from left, Carlo Nuvolari, Fabrizio Iarrera, Annette Roux, Carla Demaria and Dan Lenard. On the right, the press conference that was held in Montecarlo with the presence of nearly one hundred journalists from all around the world. In the other pictures the most evocative moments of the gala evening.
